

## 25 MM SUPERBLU BK 1000N / R100

The Pmflex SuperBlu conduit has high flexibility and very high compression resistance: 1000 N. The conduit is self-recovering and totally free of micro-holes, therefore it can be used with cement and concrete. Furthermore, it is also internally lubricated (diameters 16, 20, 25 mm), metrically marked (diameters 16, 20, 25 mm) and environmentally friendly (Low Smoke Flame retardant Zero Halogen). SuperBlu is the only SEV and IMQ certified conduit resistant to temperatures of -15°C and to shocks of 6 Joules. The color of the conduit is black RAL 9004 (utility lines: dark ceilings).

### Applications

|                              |     |
|------------------------------|-----|
| Outdoor                      | No  |
| Indoor                       | Yes |
| Exposed Installation         | No  |
| Liquid screed and concrete   | Yes |
| Chased wall - Plasterboard   | Yes |
| Chased floor                 | Yes |
| False ceiling - Movable wall | Yes |
| Prefab - Wood panels         | Yes |
