QUICK CLAMP 16 MM

Quick clamp for simple, smooth and concealed installation. Mounted easily with a single screw in the oval centre hole, providing maximum flexibility during installation. The side holes allow the use of cable ties for effective strain relief, while the centring markings significantly simplify mounting. The cable protection systems simply click into place, ensuring a neat and concealed installation with seamless joints. Compatible with Pmflex straight cable protection systems, end caps, bends and couplings in sizes 16—34 mm.

Art. code:	0665091
Diameter	16 mm
Quantity per pack	100 pcs
